# Congratulations on your purchase of the Andrea SG-100 Microphone!

The Andrea Communications SG-100 Microphone is a unidirectional microphone that offers the highest quality and performance for a single element microphone.

Features Include:

• Solid rotation base.

• Small size for ease of portablity.

• Can be used with Andrea's USB-SA Digital Audio Adapter. With the Digital Audio Adapter users receive our partner Andrea Electronics DSDA® and PureAudio® software to enable:

  • Digital noise reduction for clean noise free recordings

  • Voice over IP Internet Telephony.

Microphone Performance (polar plot):
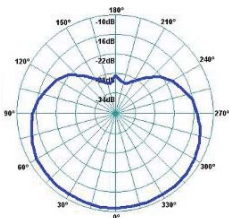

C46-5450 Rev B

COMPATIBILITY:

The Andrea SG-100 Microphone is compatible with most major digital recording devices, computers and laptops.

To connect the Andrea SG-100 Microphone to your digital recording device:

1. Plug the 3.5mm connector into the microphone input on your digital recording device.

To connect the Andrea SG-100 Microphone to your computer:

1. Plug the 3.5mm connector into the "mic level" microphone input on your computer.

TROUBLESHOOTING:

Microphone does not record sound when using a voice-recording application:

A. Check all connections.
B. Check input control for proper level in software.
C. Check that microphone is not muted on the digital recording device or in the PCs microphone audio panel.

Enhance your Andrea Communications USB Headset with a Download of patented audio enhancement software PureAudio™ Voice Solutions from our partner Andrea Electronics Corporation:
http://www.andreaelectronics.com/acl/audiocommander
